

FINANCE AND COMMERCE

New York Stock Market.

Reported by C. W. Branch & Co., bankers and brokers, No. 1111 Main street.

NEW YORK, December 30.—The liquidation which began Saturday morning continued throughout, and the lowest prices for some time were made before 11 o'clock. Then when prices had fallen to \$1,000, there was a lull, but it was evidently still at times. Closing prices were generally $\frac{1}{4}$ to 2 per cent, below those of Saturday. Nashville and Chattanooga was exceptionally strong, closing $\frac{1}{4}$ per cent higher. Today's sales were 224,220 shares.

New York Cotton Market.

(By Telegraph.)

NEW YORK, December 30.—Messrs. Hubbard, Price & Co., in their circular tonight, say: "The liquidation of the December position was expected to-day by the tender of the cotton to the Greek house who have held the contracts for that position. Receipts on Saturday were increased by the late arrivals at New Orleans and Mobile to 45,000 bales, while to-day they fall below the figure, and the movement to date is about 200,000 bales, below the week.

Estimates from Memphis for this week's movement are ranging from 21,000 to 26,000 bales, against 15,000 last year. Tight money has become a factor in the situation, the market quotations for bills being purely nominal and the advance in discount rate by the Bank of England to 6 per cent, a most unusual event on Monday, is accepted as a signal that any attempt to draw gold from England will result in suspended operations.

Futures closed from one to two points higher. Sales, 44,290 bales. Receipts on the part of to-day were estimated at 41,000 bales. Spot cotton is quoted at 104 for midweek uplands, 103 for New Orleans, 102 for Mobile, 99 to yield 7,500,000 bales. Futures closed: December, 101 1/2; January, 102 1/2; February, 102 1/2; March, 103 1/2; April, 103 1/2; May, 103 1/2; June, 103 1/2; July, 104 1/2; August, 104 1/2; September, 104 1/2; October, 104 1/2. Sugar spot cotton was fairly active; middling uplands, 9 1/2. Sales, 10,000 bales.

New York Produce Market.

NEW YORK, December 30.—Flour closed steady, with a slight rise. Wheat quiet; spot sales, No. 2 red, \$40 1/2; No. 2 red winter, December, \$38 1/2. Corn weak; spot sales, No. 2 mixed, \$39 1/2; No. 2 mixed, December, \$39 1/2. Oats steady; spot sales, No. 2 white, \$34 1/2; No. 2 mixed, December, \$34 1/2. Pork quiet; unchanged. Lard stronger; January, \$64 1/2-\$65. Sugar—Raw steady; refined steady; cut, loaf and crushed, 75¢; powdered and cubes, 65¢; granulated, 65¢. Coffee, spot lots steady; fair Rio cargo, 19 1/2¢.

Chicago Market.

Messrs. Baldwin & Farini telegraph Thomas Branch & Co., as follows: CHICAGO, December 30.—Wheat has been quiet to-day, is quite natural so near the end of the year. Local operators the only buyers, and the market was very light to-day. When the decrease was posted market-farm little. Hired men have used the advance by moderate buying, but the close is tame at \$22 for sellers. We believe it will take some time to find a market, and I recommend it to several friends, who have had a fair trial any long trouble.

Mr. JAS. D. CRAIG, of Richmond, Va., writes: A thorough test of "A. C. Tonie" in my business, I sincerely advise him to go to a doctor, as certain ladies are subject to certain periods of life, and where an arm of dependence is given, it is well to have a doctor.

Mr. R. T. MYERS, General Superintendent, New York Central, writes:

Our trains are running well, and the market around the present figures, which are fairly remunerative to the rarer, while other products are relatively very much lower than wheat. Liverbird firm; December delivery, 100 per cent.

Mr. E. H. ELLIOTT, 100 W. Marshall street, Richmond, Va., writes:

I cheerfully attest the merits of "A. C. Tonie," and I have a great deal of confidence in its efficacy for certain diseases of the bowel; the doctor recommended it to several friends, who have had a fair trial any long trouble.

Mr. JAS. D. CRAIG, of Richmond, Va., writes:
